FORESTRY SOUTH AFRICA

TO ALL MEMBERS

WATER MANAGEMENT RESOURCE CHARGES 2009 / 2010

Notwithstanding the fact that DWAF have, once again, ignored the responsibility that they have in terms of the National Water Pricing Strategy to consult with water-users and to provide relevant financial information prior to finalising their tariff proposals, these have been finalised and published. After study by the FSA Water Consultant, the tariffs are considered acceptable to Forestry.

A schedule indicating the current tariffs and the new ones is attached for your information. These will become effective as from 1 April 2009.

Should any members have queries with regard to these tariffs please contact Dr. John Scotcher on 033 330 2330 or alternatively via e-mail on jscotcher@forestlore.co.za.
